Loan Interest Rate & Fees - Variable

Your **interest rate** will be between

5.57%

and

9.47%

After the rate is set, your rate will then vary with the market.

Your Interest Rate (upon approval)

The interest rate you pay will be determined after you apply. It will be based upon your credit history and other factors (income, co-signer credit, etc.). If approved, we will notify you of the rate you qualify for within the stated range.

Your Interest Rate during the life of the loan

Your rate is variable. This means that your rate could move lower or higher than the rates on this form. The variable rate is based upon the greater of the (a) 30-Day Average SOFR or the (b) forward looking term rate based on SOFR (as published in The Wall Street Journal or by the Federal Reserve Bank of New York). For more information on this rate, see the reference notes.

Although the rate will vary after you are approved, it will **never exceed 9.90%** (the maximum allowable for this loan).

See the Reference Notes for more information on the variable interest rate.

About this example

All repayment examples are based on a \$10,000.00 loan. This loan may have multiple disbursements and enters into repayment immediately following full disbursement. Interest accrues on the disbursed amount of the loan until it enters repayment. The accrued interest is added to the loan balance. These repayment examples are based on the **highest rate currently charged** and two disbursements made six months apart.
